

ECOMEMBRANE S.P.A. RECEIVES AN ORDER FOR THE SUPPLY OF COMPONENTS FOR THE CONSTRUCTION OF A GASOMETER FOR AN AMOUNT OF EURO 1.55 MILLION

The supply will allow the construction of an innovative gasometer for the storage of CO₂

Gadesco Pieve Delmona (CR), June 27th, 2023 - Ecomembrane S.p.A. (ISIN IT0005543332), leading company in the design and construction of gas storage and containment systems for the production of green energy, listed on the EGM segment of Borsa Italiana S.p.A., announces that it has received an order for the supply of components for the construction of a gasometer for the storage of CO₂ for an amount of Euro 1,550,000, with delivery date expected within the current year.

The client is an innovative Italian company that has developed a pioneering technology that uses CO₂, stored in the gasometer, to obtain clean energy during hours when solar energy is not available. The system uses carbon dioxide stored in the gasometer as a fluid to store energy using pressure jumps.

Lorenzo Spedini, CEO of Ecomembrane, commented: "We are very satisfied with this new order that testifies, once again, the reliability of our products and our know-how and confirms the leadership position of Ecomembrane as a company, in gas storage, constantly projected towards innovative technologies and solutions in the green energy sector. "

About Ecomembrane

Ecomembrane S.p.A., based in Gadesco Pieve Delmona (Cremona, Italy) and North Little Rock (Arkansas, USA), has been operating in the renewable energy and biogas sector since 2000 and is led by the Founder and CEO Lorenzo Spedini. Ecomembrane calls itself among the founding fathers of membrane gasholders of the modern era and specializes in the production of gasholders, gasholders domes for anaerobic digestors, anti-emission covers using PVC-coated fabric membranes, and in every component of products used for biogas combustion and power generation. By 10 patents, the Company designs, manufactures, markets and installs components for biogas and biomethane production plants and systems for storing gases such as biogas, methane, CO₂, hydrogen. Currently, the Company employs more than 40 employees and has a commercial presence in all continents and in more than 40 countries, with offices and production units in Italy and in USA. More than 1,000 products are installed and tested worldwide, from Minnesota (USA) to South Korea, Italy, Turkey and Malaysia. The sales network is followed directly by Ecomembrane personnel for the Italian and American markets, while for the rest of the world it relies on an extensive network of distributors.
