

ECOMEMBRANE JOINS THE INTERMONTE VALORE ITALIA INDEX

Gadesco Pieve Delmona, 02 July 2026 – Ecomembrane S.p.A. (hereafter “**Ecomembrane**” or the “**Company**”, ISIN IT0005543332), a leading company in the design and construction of gas storage and containment systems for the production of green energy, listed on the EGM segment of Borsa Italiana S.p.A., is proud to announce that it has been selected as one of the 100 companies listed on the Borsa Italiana that constitute the **Intermonte Valore Italia Index**, which is dedicated to SMEs with a market capitalization of less than one billion euros that are not included in the FTSE MIB.

The Index was created with the aim of highlighting the universe of listed Italian small and medium-sized enterprises, serving as a meeting point between entrepreneurship, the capital markets, and the national economy. It represents a true cross-section of the best expertise in the Italian economy, helping to broaden and diversify investment opportunities compared to traditional indices for both domestic and international investors.

Companies are selected based on rigorous technical and financial criteria designed to ensure adequate levels of liquidity, transparency, and investability, including: minimum free float, strong governance standards, analyst coverage, financial sustainability, and debt levels, as well as their representativeness within the Index itself.

The Index is part of **PMI2Change**, Banca Generali’s innovative project unveiled on July 1, 2026, at Borsa Italiana’s Palazzo Mezzanotte, which aims to support the growth and competitiveness of Italian entrepreneurs by fostering the development of publicly traded domestic SMEs. The project addresses the issue of limited liquidity and undervaluation of listed SMEs, helping to create the best conditions for a more efficient match between capital and businesses.

The initiative builds on the expertise of Intermonte, a leading Italian player in the sector with over thirty years of experience in financial markets—particularly in SME research, sales & trading, market making, and investment banking—which has been an integral part of the Banca Generali Group since early 2025.

Based on the Index, Banca Generali, together with Investlinx and Intermonte, has launched a new actively managed, **PIR-compliant ETF** that will invest primarily in the universe defined by the Index itself. Banca Generali has committed to supporting the launch of the fund with an initial capital inflow of 100 million euros in the first few months, with a gradual increase in exposure to reach 500 million euros in the medium term. It is therefore estimated that the initiative could help generate new investment inflows of 1–2 million euros per day, representing more than 5% of the Index’s free float.

Information about Ecomembrane

Ecomembrane S.p.A., with registered office in Gadesco Pieve Delmona (Cremona) and North Little Rock (Arkansas, USA), has been operating in the renewable energies and biogas sector since 2000 and is managed by its Founder and CEO, Lorenzo Spedini. Ecomembrane considers itself one of the founding fathers of the modern era membrane gasholders and is specialised in producing gasholders, heat shields for anaerobic digesters, odour control-covers made in PVC-coated fabric membrane and all parts of products needed for the combustion of biogas and the production of electricity. The Company designs, produces, markets and installs components for biogas and biomethane production plants and gas storage systems such as biogas, methane, CO₂, hydrogen. It is also involved in the photovoltaic industry with its subsidiary SBS Solar, focusing on the construction of single-axis trackers and the development and construction of turnkey systems. The Company currently has more than 70 employees and is present commercially on all continents and in 40 countries, with offices and production units in Italy and the USA.
